

Haddonfield Child Care

To the Health Care Provider completing the attached Care Plan:

Thank you for your assistance in helping Haddonfield Child Care to provide the best possible care for your patient.

When completing this form, please take into account that, in addition to the regular school day, this child will be attending a before and/or after school program for extended periods where there is no nurse or other medical personnel available.

Therefore, please be sure that all instructions and terminology are clear and understandable to the average layman, and that the plans recommended may be carried out by typical child care staff.

In the case of a child whose care is complex, or requires significant advance training of staff, Haddonfield Child Care will discuss with you and the parent/guardian the exact nature of the needed care and how/when training may be obtained.

If you have any questions about this matter, please contact our Executive Director, Denise Sellers, at (856) 429-1603.
